

"Taking the danger out
of dangerous goods"

DG Operations

Before any dangerous goods may be offered for transport they must be properly classified, packed, marked, labelled and documented in accordance with the applicable transportation regulations.

Having over 30 years of knowledge and experience, DGM is well known for preparing dangerous goods shipments in accordance with the modal specific dangerous goods regulations (49 CFR, ICAO-IATA, ADR, IMDG Code and RID).

DGM provides the following operations services:

- ◆ Classification and identification of DGs
- ◆ Packing and repacking of shipments
- ◆ Check on packaging specification tests and criteria (UN tested packagings)
- ◆ Labeling and Marking of shipments
- ◆ Documentation

Additional Operations Services:

- ◆ 24 Hours Emergency Service Contact
- ◆ Packing List
- ◆ Acceptance Checks

In addition, DGM carries a global comprehensive liability insurance policy. In case of an accident or incident, DGM can assume all relevant liability acting as the shipper on behalf of the customer on the dangerous goods declaration document.
