### CONSULTANCY

Our team of consultants, certify under IATA, IMDG and ADR, is committed to offer professional advice on various transportation modes such as air, sea, and land.

Recognizing the significance of precise and timely information, our worldwide network utilizes DG Office software, developed from the IATA Dangerous Goods Regulations, to ensure full regulatory compliance.

- Rapid Response Time: Our KPI ensures that every inquiry is responded to within 45 minutes, highlighting our commitment to timely service.
- Comprehensive Expertise: We offer expert guidance across all transportation modes air, sea, and land—ensuring full compliance with relevant regulations.
- Advanced Tools: Our global network is equipped with DG Office software, based on IATA,IMDG and ADR Dangerous Goods Regulations, guaranteeing precise and accurate information.
- Dangerous Goods Training Program (DGTP): We consult and collaborate with airlines to develop Dangerous Goods Training Programs (DGTP) in compliance with Competency-Based Training and Assessment (CBTA) requirements. Additionally, we handle the submission process to the Civil Aviation Authority of Malaysia (CAAM) for program approval.

### **TRAINING**

#### IATA Dangerous Goods Regulations – Functions 1 & 3 (Initial & Recurrent) Courses

- This certification course, based on the IATA Dangerous Goods Regulations and approved by the Civil Aviation Authority of Malaysia (CAAM), is essential for industry compliance.
- The course is led by certified and experienced instructors, recognized by both IATA and CAAM.
- Certification is valid for the specified duration.
- Initial course (5 days) and Recurrent course (2 days).

#### IATA Dangerous Goods Regulations – Functions 2-10 (Initial & Recurrent) Courses, Other than Functions 1 & 3

- This course is tailored for a specific audience, ensuring alignment with IATA Dangerous Goods Regulations requirements.
- It is delivered by certified and experienced instructors, accredited by both IATA and CAAM.

#### IATA Lithium & Sodium Battery Courses

 This course provides awareness and general knowledge specifically related to the transportation of lithium batteries, ensuring safe and compliant handling.

#### **Airfreight Cargo Skills**

 A comprehensive 3-day course designed for all parties responsible for air cargo shipments, equipping them with the skills needed to manage the commencement, carriage, and delivery of cargo in compliance with Industry and IATA standards.

#### **IMDG & ADR Courses**

Specialized training focused on the International Maritime Dangerous Goods (IMDG)
 Code and the European Agreement concerning the International Carriage of Dangerous
 Goods by Road (ADR), ensuring adherence to global safety standards.

Note: All our training programs are eligible for HRDC claims under the SBL-Khas Scheme.

### **OPERATIONS**

At the heart of our operations, we focus on providing critical services to ensure the safe and compliant handling of dangerous goods. Our core activities include;-

- UN Packing and Repacking
- Dangerous Goods Inspection and Consultation
- Preparation of Shipper's Declarations for Dangerous Goods
- Issuance of Inspection Letters for Airline Acceptance
- \*\*All activities are conducted in compliance with air and sea shipment regulations.

#### **Our Expertise**

We take great pride in the expertise of our operational staff. Every team member is not only well-trained but also IATA & IMO certified, bringing a wealth of experience to the handling of dangerous cargoes. This deep knowledge base allows us to navigate the challenges associated with dangerous goods, providing our clients with confidence that their cargo is in the best possible hands.

#### **Safety First**

Safety is the cornerstone of our operations. Our company is deeply committed to maintaining a safe working environment, recognizing that the well-being of our staff and the integrity of our processes are paramount. To this end, we enforce a rigorous Standard Safety Quality Manual (SQM) known as Integrated Management System (IMS) across all our global networks. This manual sets stringent guidelines to ensure that every aspect of our operations adheres to the highest safety standards, protecting both our team members and the valuable cargo we handle.

#### **Commitment to Quality**

Quality is more than just a goal for us; it is a fundamental aspect of our service delivery. We are dedicated to providing our customers with the highest level of service, ensuring that their cargo is not only safe for transport but also ready in a timely manner. Our commitment to quality means that we continually strive to meet and exceed our clients' expectations, delivering reliable, efficient, and compliant solutions that they can trust.

#### **Expertise on Site**

DGM offers on-site expertise by deploying our specialized Dangerous Goods Logistics professionals directly to your office or facility. Our team works closely with your staff, providing hands-on support for compliance, packaging, labeling, documentation, and the safe handling of dangerous goods.

# IATA PUBLICATIONS SALES AGENT

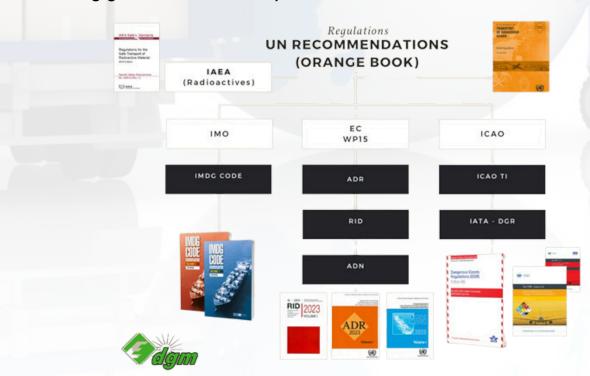

Our company is committed to providing essential resources that support compliance, safety, and efficiency in the handling of dangerous goods and cargo. We offer a range of authoritative publications, both from IATA and other key international organizations, to help our clients stay informed and compliant with the latest regulations and best practices in the industry.

#### **IATA Publications**

- IATA Dangerous Goods Regulations Manual: The definitive guide for the safe transport of dangerous goods by air, ensuring adherence to global standards.
- Airport Handling Manual: A comprehensive resource that outlines best practices and standardized procedures for airport operations, enhancing efficiency and safety.
- Animals Regulations: Provides detailed guidelines for the safe and humane transport of live animals, in line with international standards.
- Perishable Cargo Regulations: A crucial publication for the proper handling and transportation of perishable goods, ensuring that temperature-sensitive cargo arrives in optimal condition.

#### Non-IATA Publications

- International Maritime Dangerous Goods (IMDG) Code: The essential guide for the safe transport of dangerous goods by sea, ensuring compliance with international maritime regulations.
- ICAO Technical Instructions: A key resource providing detailed technical instructions for the safe transport of dangerous goods by air, complementing IATA guidelines and ensuring global aviation safety

### **PRODUCTS**

We offer a comprehensive range of packaging solutions and safety materials designed to meet the stringent requirements for the transportation of dangerous goods. Our products are carefully selected to ensure compliance with international regulations, providing you with reliable and effective options for every type of hazardous material. From UN-certified packaging to essential handling labels and absorbent materials, we have everything you need to safely and securely transport dangerous goods.

#### UN Fibreboard Boxes (4G)

- UN/4G/X5
- UN/4G/X9
- UN/4G/X15
- UN/4G/X33
- UN/4GV/X57
- UN/4GV/Y36.5
- UN/4GV/X41
- UN/4G/Y25
- UN/4GV/X17
- UN/4GV/X35

#### **UN Single Packagings**

- Steel Drum 1A1
- Steel Drum 1A2
- Plastic Jerry Can 3H1

#### Hazard & Handling Labels, Markings

 We offer a full range of hazard and handling labels and markings for all classes of dangerous goods, ensuring clear identification and compliance with regulatory requirements.

#### Absorbent Materials & Other Safety Solutions

- Vermiculite
- Dunnage
- Absorbent Mat
- Dry Ice

Our selection of absorbent materials, including vermiculite and absorbent mats, is essential for spill control and cushioning, while our dunnage and dry ice solutions provide additional protection and temperature control during transport.

These products are vital components in the safe and compliant handling of dangerous goods, providing peace of mind and ensuring that your shipments meet all necessary safety and regulatory standards.

### DG OFFICE

At DGM, we utilize DG Office, a cutting-edge software solution designed to manage and streamline all aspects of dangerous goods logistics. By leveraging DG Office, we ensure full compliance with international regulations such as IATA DGR, IMDG Code and ADR.

The software streamlines essential processes such as classification, packaging, labeling, and documentation, reducing the risk of human error while ensuring exceptional accuracy and safety. DG Office enables seamless generation and validation of Dangerous Goods Declarations (DGD) for both air and sea transport, ensuring every shipment complies with regulatory standards.

In addition to enhancing compliance, DG Office improves operational efficiency, enabling us to handle large volumes of shipments with precision

Our use of DG Office reflects our commitment to adopting the best technological solutions available in the industry. By integrating this powerful tool into our operations, we continue to provide our clients with reliable, efficient, and compliant dangerous goods logistics services, setting new standards of excellence.

### DGM NETWORK

DGM operates a robust global network, strategically positioned to provide comprehensive dangerous goods management solutions worldwide. Our extensive network ensures that we can offer consistent, high-quality services across diverse regions, meeting the specific needs of our clients regardless of their location.

- Strategic Locations: Our network spans major international hubs and key locations around the globe. This strategic positioning allows us to efficiently handle and manage dangerous goods, providing seamless support for air, sea, and land transportation.
- Local Knowledge: Each office within our network is staffed with professionals who possess deep local knowledge and expertise in regulatory requirements. This ensures that our clients receive tailored solutions that adhere to both local and international standards.
- Expertise Across All Modes of Transport: Whether handling dangerous goods by air, sea, or land, our global network has the expertise and resources to manage and support the transport of hazardous materials in compliance with international regulations.
- Emergency Support: In addition to routine services, our global network is equipped to handle emergency situations. Our team is trained to respond swiftly to any incidents involving dangerous goods, ensuring the safety and security of cargo and personnel.
- By leveraging our global network, DGM offers a comprehensive range of services and solutions for dangerous goods management, providing reliable and expert support wherever and whenever it is needed.

### CERTIFICATION

ISO 9001:2015

(Accreditation No : ACB QMS 08)

Our company is proudly certified by ISO 9001:2015, an internationally recognized standard that ensures the quality of our management systems. This certification demonstrates our commitment to providing consistent, high-quality services that meet customer and regulatory requirements. Here's how ISO 9001:2015 certification benefits our operations and our clients:

#### 1. Commitment to Quality

Consistent Service Delivery: ISO 9001:2015 requires a strong focus on customer satisfaction and continuous improvement. This means our clients receive reliable, high-quality services every time.

Process Optimization: The certification drives us to constantly refine our processes, ensuring that our operations are efficient and effective, minimizing errors and maximizing productivity.

#### 2. Customer Satisfaction

Client-Centric Approach: Being ISO 9001:2015 certified means we prioritize our clients' needs, ensuring that their expectations are met or exceeded. We regularly gather feedback and make improvements based on our clients' input.

Quality Assurance: Our certification assures clients that we adhere to stringent quality management practices, giving them confidence in the safety and reliability of our services.

#### 3. Regulatory Compliance

Adherence to Standards: ISO 9001:2015 ensures that we comply with international standards, as well as any applicable legal and regulatory requirements. This is crucial in the field of dangerous goods management, where safety and compliance are paramount.

Risk Management: The standard emphasizes risk-based thinking, allowing us to identify potential issues before they arise and implement preventive measures, thereby reducing risks associated with our services.

#### 4. Continuous Improvement

Ongoing Development: ISO 9001:2015 is not just about maintaining current standards; it's about continuous improvement. We are committed to regularly reviewing and improving our quality management system to adapt to changes in the industry and better serve our clients.

Employee Training and Development: Our certification process involves ongoing training for our staff to ensure they are up-to-date with the latest best practices, regulations, and technological advancements.

By being ISO 9001:2015 certified, we assure our clients that we uphold the highest standards in our operations, focusing on quality, efficiency, and customer satisfaction. This certification is a testament to our dedication to excellence in all aspects of our business.

### CERTIFICATION

#### IATA Certified Dangerous Goods Training

At DGM, our commitment to global standards is reflected in our certification by the International Air Transport Association (IATA). This prestigious certification allows us to offer training programs that are recognized and respected worldwide, ensuring that our clients are fully equipped to handle and transport dangerous goods in compliance with international regulations. Our IATA certification signifies our dedication to excellence in safety and regulatory compliance across the global aviation industry.

- Global Standard Compliance: DGM's IATA certification ensures that our training programs meet international standards for the air transport of dangerous goods. This certification is recognized worldwide, demonstrating our commitment to upholding the highest levels of safety and regulatory compliance in the industry.
- Comprehensive Training: Our IATA-certified courses cover all aspects of the Dangerous Goods Regulations (DGR), providing participants with the necessary knowledge to handle and transport hazardous materials safely.
- Expert Instructors: Our IATA-certified instructors bring both regulatory expertise and practical experience, ensuring that participants receive high-quality, relevant training.
- Up-to-Date Content: We regularly update our IATA training curriculum to reflect the latest regulatory changes and industry best practices, keeping our clients compliant with evolving standards.

DGM is proud to be an IATA-certified Competency-Based Training and Assessment (CBTA) provider. This certification reflects our commitment to delivering cutting-edge training programs that adhere to the highest international standards set by the International Air Transport Association (IATA).

CBTA is a modern approach to training that focuses on developing specific competencies required for the safe and efficient handling, transport, and management of dangerous goods. Unlike traditional training methods that often emphasize theoretical knowledge, CBTA is designed to ensure that participants gain the practical skills and understanding necessary to perform their roles effectively.

### CERTIFICATION

#### **CAAM Certified Dangerous Goods Training**

DGM is proud to be certified by the Civil Aviation Authority of Malaysia (CAAM), demonstrating our alignment with the stringent safety and regulatory requirements of Malaysia's aviation sector. Our CAAM certification enables us to provide specialized training programs that meet national standards, ensuring that participants are fully prepared to manage dangerous goods within the local regulatory framework. This certification underscores our commitment to supporting the safe and compliant handling of hazardous materials within Malaysia.

- National Safety Standards: DGM's CAAM certification highlights our adherence to Malaysia's national aviation safety standards. Our training programs align with the strict requirements set by the Civil Aviation Authority of Malaysia.
- Focused Training Programs: Our CAAM-certified courses are designed to meet the specific needs
  of the Malaysian aviation industry, ensuring that all participants are trained in accordance with
  local regulations.
- Qualified Trainers: Our CAAM-certified trainers possess deep knowledge of both national and international dangerous goods regulations, providing participants with the tools they need to operate safely within Malaysia.
- Local Compliance: By choosing our CAAM-certified training, participants can be confident that
  they are receiving education that meets local regulatory requirements, reducing the risk of noncompliance in their operations.

### INSURANCE

At DGM, we offer comprehensive insurance coverage to ensure the utmost safety and security for your dangerous goods shipments. Our insurance policy provides coverage up to Euro 17,500,000 per claim and in the annual aggregate for bodily injury and/or property damage combined under a single limit. This robust coverage is designed to protect against potential risks and provide peace of mind.

Coverage is applicable when dangerous goods are declared and packed according to our stringent procedures. By incorporating this extensive insurance into our services, DGM reinforces its commitment to delivering reliable and secure logistics solutions, offering exceptional support for any unforeseen events.

Our commitment to safety goes beyond insurance, with rigorous protocols and training programs in place to ensure all shipments are handled with the highest standards of care and compliance. We work closely with our clients to understand their specific needs and provide tailored solutions that align with industry regulations and best practices.

With DGM, you can trust that your dangerous goods are in capable hands, backed by a robust insurance policy and a dedicated team focused on minimizing risks and ensuring smooth, secure logistics operations
